## PDD Treatment

By Robert Basrone (WC3O) on May 24, 2011

PDD -- Post Dayton Depression (a very real condition)

Symptoms may include:

- Stomach pain
  - Diarrhea
  - Excessive gas (Well, that's normal)
  - Headache
  - A strong urge to attach antennas to your body
  - Drooling in response to thinking about Waffle House
  - Tendency to tell people 73
  - Walking slowly, looking down with your hands behind your back
  - Keeping a sharp eye out for rouge scooters

4 out of 5 Elmers recommend DaytonX for their patients with PDD.

DaytonX , when properly dosed in conjunction with a regiment of Canadian Windsor has been proven effective in treating the symptoms of PDD.

Some side effects have been reported with DaytonX.

Side effects may include, but not limited to:

- Confusion
- Fast or pounding heartbeat
- Thoughts of suicide
- Telling co-workers to go crap in their hat
- Sudden outbursts of profanities
- Persistent hearing of "YEE HAAAAW!" off in the distance
- Tendency to look up and yell "OH GOD I'M BACK!"

If you suffer from any other these condition consult your Elmer immediately and stop taking DaytonX.

Do not take DaytonX if you're pregnant, could become pregnant, tend to miss stop signs and red lights because you were looking up for antennas, use a straight key or keep missing the foot switch.

Only your Elmer can tell you if DaytonX is right for you.

DaytonX: For that sinking feeling.

## New Russian Prefix System in Use

06/08/2011

If you have been on the HF bands lately, you may have noticed that a number of new prefixes are in use by stations in the Russian Federation. Here is a summary of the changes recently adopted by the Russian telecommunication authorities.

- Russian prefixes with the numeral 2 are no longer limited to Kaliningradsk. Stations with RA2 and UA2-UI2 (with F and K as the first letter in the suffix) are in Kaliningradsk; otherwise, these prefixes will be used in European Russia.
- Stations with the following prefixes are in European Russia: R1, RA1-RZ1 (except RI1 as noted below), R2, RB2-RZ2, R3-R7, RA3-RZ7, UA1 and UA3-UI7. Also, stations with the prefixes R8, R9, RA8-RZ9 and UA8-UI9 (with F, S, T, W or X as the first letter in the suffix) are in European Russia.
- Except for those listed above, all stations with 8, 9 and 0 as the numeral are in Asiatic Russia.
- Russian Antarctic stations use temporary call signs in the series RI1ANA-RI1ANZ and RI00ANT to RI99ANT.
- Franz Jozef Land stations use temporary call signs RI1F, RI1FJ and RI1FJA-RI1FJZ.
- Malyj Visotskij island stations use temporary call signs RI1M, RI1MV and RI1MVA-RI1MVZ.

*Thanks to SRR President Roman Thomas, R5AA (ex-RZ3AA) for the information.*
